Moves that we make every day.... We make it hard by breaking it down into small parts instead of staying with the whole and making the swing be a response to what we do with the club. She follows the principles of PGA and Hall of Fame member Manuel de la Torre and is featured in his dvd "Understanding the Golf Swing".

Erin has her own instructional dvd called 'Golfing with Erin.'

As I mark the one-year anniversary since becoming a part of The Home Course family, I am very excited about the future of our facility. Not only do I teach the swing or a movement in a certain area of the game, but I also want to teach my students how to play the game. Golf requires certain fundamentals to play at a solid level, but many players and teachers don't spend enough time on the other areas of the game that are vital to scoring. Course management, being able to control emotions and shot selection. These are a couple of critical examples that have a huge impact on the score of a round. These are areas I love exploring with my students.

Twin Lakes Golf & C C, Federal Way

Kris Runge – PGA Head Professional

Teaching philosophy: Anybody who has played golf knows how difficult and complicated the game can be at times. This idea of complexity takes on a whole new meaning when taking lessons. I attempt to keep the lesson simple by focusing on set-up and the impact that has on swing plane and swing path and how these areas effect the flight of the golf ball. See how simple that sounds?

If this has peaked your curiosity, for \$45, we can talk about this in more detail for 45 minutes.

I can be contacted at Twin Lakes pro shop: 253-838-0345.

Josh Scothorne – Assistant Golf Professional

Josh was on the Walla Walla Community College Golf Team for two years. He won the 2015 Washington State Assistants Champion and two-time North/South Cup qualifier, the 2016 Western Wash. Chapter Top 10 Player of the Year.

Josh charges \$45 per half-hour lesson.

“My teaching philosophy is to reshape and improve the player’s natural swing while also improving the player’s setup positions. I believe most flaws in a player’s swing stem from poor setup positions and too much tension throughout their body.

He can be contacted through the Twin Lakes pro shop at: 253-838-0345.

Steve Hussey – Assistant Golf Professional

Steve started out in the golf industry at an early age at North Shore Golf Course. Steve graduated from the San Diego Golf Academy and worked in the industry during his early years, then left the golf business for a time. Steve is back in golf and restarting his career here at Twin Lakes. Steve is registered in the PGA apprentice program and is excited to be a part of the team at Twin Lakes.

He can be contacted through the Twin Lakes pro shop at: 253-838-0345.

Linden Golf & Country Club

Ben Nelson – PGA Apprentice

Ben uses a series of biomechanical tests to evaluate each student. These tests allow him to understand the way the students body is built, and how it is designed to move. Not everyone is built to move the same way, and understanding each individuals body is extremely important. Once the testing process is complete, Ben is able to create a very simple blue print for each student. Teaching a student to swing the way their body is designed allows them to achieve their maximum potential club speed, while improving consistency and reducing injuries. Lake Spanaway Golf Course

Matt Montecucco, PGA - Head Golf Professional
(253) 531-3660 – mmontecucco@kempersprots.com

Teaching Philosophy: Golf is a sport that has so many moving parts and can become the most complicated sport around, but it is how that sport is broken down to its basics and taught so that any age and skill level will understand. Golf is like the gears in a clock. If one piece is moving faster than the other, then the clock will have the wrong time. Matt guarantees that you will see your consistency increase with only one lesson without changing your swing to imitate a PGA Pro.
